TxDOT is proposing improvements to FM 624 (Northwest Boulevard) from Wildcat Drive to CR 73 in Corpus Christi, Nueces County, a length of approximately three miles. The proposed project would widen the roadway to accommodate three continuous travel lanes in each direction, turn lanes, a sidewalk, and a shared use path. The existing raised center median along FM 624 (Northwest Boulevard) would be modified and a raised median would be extended to CR 73. All improvements would be constructed within the existing right of way.

Any environmental documentation or studies, any maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at TxDOT Corpus Christi District Office, 1701 S. Padre Island Dr., Corpus Christi, TX 78416, or by calling 361-808-2509.
