

# SH 361 Improvement Study

Green area represents the study area

## About the Study

The Texas Department of Transportation (TxDOT) is conducting a feasibility study for the SH 361 and the SH 361/SH 35/US 181 Interchange in and around the cities of Gregory, Portland, and Ingleside. The purpose of the feasibility study is to identify opportunities to better connect SH 361 and SH 35/US 181 while also improving safety and mobility. This is part of a larger project to improve the SH 361 corridor in San Patricio County from the SH 361/SH 35 interchange to just west of FM 1069 .

## What is a Feasibility Study?

During the feasibility phase of project development, engineers and planners conduct studies to:

- Define the problems

- Gather data

- Recommend solutions

- Weigh the potential environmental impacts

- Analyze a preferred concept

*This is all done with input from you, our stakeholder!*
