

Planning Study Scope and Updated Study Area

TxDOT is conducting a US 77 Odem Area Planning Study from I-37 to FM 1945 near Sinton as part of TxDOT's initial planning efforts to extend I-69E from Corpus Christi to Sinton, Texas. This Study is intended to:

- Establish the purpose and need for bringing US 77 up to interstate standards.
- Describe the environmental features.
- Develop, evaluate and screen route options that meet interstate standards.
- Identify route options(s) that should be advanced for further schematic design and environmental study.
- Engage stakeholders and the public throughout the project development process.
