

US 77 Sinton Improvement Project

Fact Sheet

October 2021

The primary purpose of the proposed project is to improve safety and mobility by upgrading US 77 at Sinton to interstate standards as part of the future Interstate Highway 69 corridor. The project would upgrade the existing 4-lane divided rural highway to a 4-lane divided freeway to accommodate the growing population and increased traffic, including freight.

Project Details

Project Limits:

From BU 77 South to BU 77 North

Project Length:

Approximately 6 miles

Proposed Improvements:

- Construct continuous frontage roads including entrance and exit ramps
- Construct an overpass at CR 1196 along with intersection improvements
- Additional right-of-way would be required
