

Finding of No Significant Impact for a FHWA Project

Proposed Action: United States Highway (US) 380

Project Limits: State Loop (SL) 288 to West of County Road (CR) 26 (County Line)

City: NA

County: Denton County

State: Texas

TxDOT CSJ(s): 0135-10-050 and 0135-10-057

In accordance with 43 T.A.C. Part 1, Chapter 2, Subchapter D, Section 2.83, the Texas Department of Transportation (TxDOT) has determined that US 380 will not have a significant impact on the human or natural environment.

This Finding of No Significant Impact (FONSI) for the Preferred Alternative is based on the final Environmental Assessment (EA) dated June 2018 and the entire project record. This decision documents the selection of the Six-lane Build Alternative, presented in the final EA as the Preferred Alternative, which is described as:

Reconstruction and widening of existing US 380 from a four-lane undivided rural to a six-lane divided urban roadway consisting of two 11- to 12-foot wide inside travel lanes and 14-foot wide outside shared-use lanes (for bicycle accommodation), with raised medians and curb and gutter in each direction. The proposed roadway would also include intersection improvements at designated locations. Left and right turn lanes would be added at designated locations. In addition, interchange improvements are proposed including five new grade separations. A minimum of five-foot sidewalks would be located along the outer lanes of the roadway.

A Notice of Availability of the draft EA was issued on April 6, 2018.

A public hearing for this project was held on April 24, 2018.

No changes to the draft EA were made as a result of comments received on the draft EA during the posted comment period or from comments made at the public hearing.

Public Hearing Documentation has been prepared and is available for review on request.

The final EA and reports contained in the file of record have been independently evaluated by TxDOT and determined to adequately and accurately discuss the need, purpose, alternatives, environmental issues, impacts of the proposed project, and appropriate mitigation measures. These documents provide sufficient evidence and analysis for determining that preparation of an Environmental Impact Statement is not required. These documents are incorporated by reference into this decisional document.

Based upon TxDOT's review and consideration of the analysis and evaluation contained in the EA for this project, and after careful consideration of all social, economic, and environmental factors, including input from the public involvement process, TxDOT hereby issues this Finding of No Significant Impact for the US 380 project from State Loop 288 to West of County Road 26 (County Line).

TxDOT will ensure adherence and completion of all project commitments described in the final EA June 2018, Section 8.0. TxDOT will ensure that any and all local, state, or federal permit requirements and conditions are met and otherwise complied with.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and the

Finding of No Significant Impact for a FHWA Project

Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Environmental Document Certification Form

Project Name: US 380: from State Loop (SL) 288 to West of County Road (CR) 26 (County Line)

Control Section Job Number (CSJ): 0135-10-050 and 0135-10-057

Document Type: EA EIS FONSI ROD

Document Stage: Draft Final

This checklist shall be used to certify that an environmental document is ready for public review (draft documents) or approval (final documents).

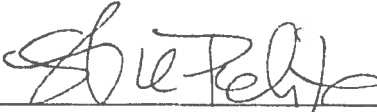

When all required items are satisfactorily completed, the District and ENV representatives will sign this form indicating the environmental document is certified and may proceed to public review or is ready for final approval.

This project meets all the following requirements:

- A. A project scope has been completed for the project.
- B. The document has been determined to be administratively complete.
- C. The document meets the requirements of technical review (43 TAC §2.49) as required to date.
- D. The required public participation has been completed as required to date.
- E. All consultation and coordination required for the environmental decision is complete and appropriately documented (for final environmental documents).
- F. Legal Review or Legal Sufficiency Review has been completed, as required.
- G. Current funding has been reviewed, and is as follows:

Mix of Federal/State/Local funding State-only funding Date Verified: 6-21-18
