

US 377 in Hood County Project

Second Virtual Public Meeting With In-Person Option – Nov. 17th, 2022

Project Overview

Highway/Limits: US 377 from Holmes Drive to 3,000 feet north of FM 167 (Fall Creek Highway), in the City of Granbury, Hood County, Texas

Project CSJs: 00080-04-081, 0080-03-049, 0080-04-094, and 0080-03-060

Project Length: Approximately 9 miles

Description: US 377 between Holmes Drive and SH 144 would be converted from a rural highway to a four-lane urban highway with a raised median, enclosed drainage and curbs where appropriate. The proposed project would reconstruct and widen US 377 from SH 144 to north of FM 167 (Fall Creek Highway) from a four-lane divided highway to a six-lane divided highway with a raised, concrete-paved or vegetated median. Improvements are also proposed along SH 144 from Autumn Ridge Road to FM 51 (Paluxy Road) (CSJ 0080-03-049), a distance of approximately 0.4 mile.

The proposed project would, subject to final design considerations, require approximately 26 acres of additional right of way (ROW) and 3.4 acres of permanent drainage easements. The proposed project would potentially displace five commercial structures.

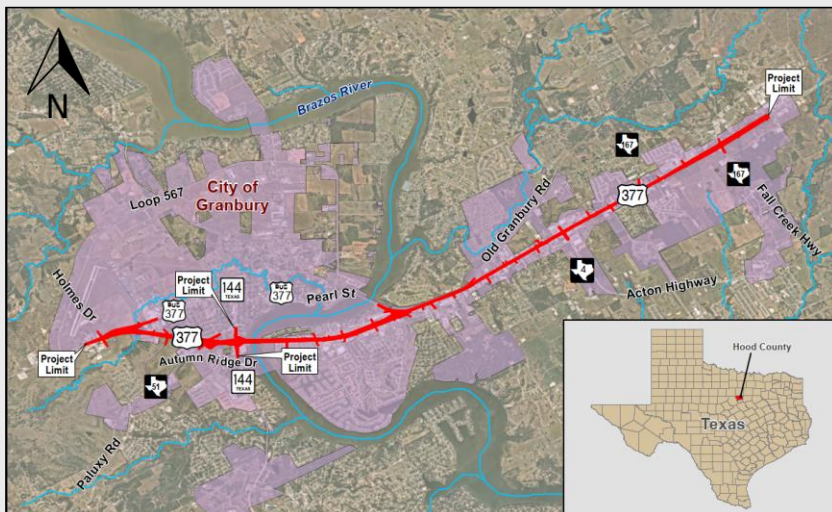

Funding: The Breakout Project (CSJ: 0080-03-049), which includes the SH 144 interchange, is partially funded for construction starting in Summer 2026. Remaining phases of the project would be constructed subject to funding availability.

Estimated Construction Cost: \$240 million

Contact: Dr. Francis Smith, P.E.
Texas Department of Transportation
Fort Worth District Office
2501 S.W. Loop 820
Email: Francis.Smith@txdot.gov
Phone: (817) 370-6708

The proposed project also includes improvements to cross street intersections, ramps and driveway connections, the addition of shared-use paths in each direction to accommodate bicyclists and pedestrians, signalization, and drainage improvements.

Estimated Project Milestones
