## Welcome to the Public Meeting

The Texas Department of Transportation (TxDOT) welcomes you to this hybrid (in-person and virtual) public meeting for the proposed improvements project for FM 1314 from Ferne Drive to SL 494 in Montgomery County, Texas. The purpose of this public meeting is to afford the public an opportunity to review and provide comments on the proposed project. This public meeting is being conducted both virtually and in-person. The virtual option includes a pre-recorded presentation in English and Spanish. You are invited to view the narrated presentation, exhibit boards and view the proposed improvements on the schematic exhibit. The in-person option will include the same information and materials presented in the virtual option.

Public comments are encouraged. Details on how to comment are on the following page.

## Proposed Project Description

The existing roadway is a 4-lane roadway, which includes two 12-foot-wide main lanes in each direction and 10-foot-wide outside shoulders. The existing roadway has a 16-foot-wide raised median at the Grand Parkway/State Highway (SH) 99 and Interstate Highway 69 (I-69)/United States (US) 59 intersections, while the rest of the project area has a 16-foot continuous left-turn lane. The proposed improvements to FM 1314 would include the construction of a 16-foot-wide raised median within approximately 5 miles of FM 1314, as well as the installation of updated detection systems at several signals, pavement overlay, and raised pavement markers.
