WELCOME
TO THE PROPOSED INTERSTATE (I) 10 AT SAN JACINTO RIVER BRIDGE RECONSTRUCTION PUBLIC MEETING

I-10 from Magnolia Street to Thompson Road and Spur 330 from I-10 to Thompson Road
Virtual Public Meeting: September 19, 2023
In-Person Open House: September 21, 2023

Why Am I Here?

• Learn about the proposed project
• Review the proposed improvements
• Submit comments

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
Project Name: I-10 at San Jacinto River Bridge Reconstruction

Project Length: Approximately 4.5 miles

Project Limits: I-10 from Magnolia St to Thompson Rd & Spur 330 from I-10 to Thompson Rd

Project Reference Number: 0508-01-379

Estimated Construction Cost: $555 million

Funding: Federal and State
Need:
The project is needed due to aging infrastructure, multiple barge collisions with the bridge structures, increasing vehicular congestion, and inability of the current bridge to meet regional planning goals.

Purpose:
The purpose of the proposed project is to update the aging structure and reduce barge collisions with the bridge, and decrease congestion which would improve safety, access, and navigation for the mariner community and increase safety for the traveling public.
- Areas of potential detention ponds are currently being analyzed.
- Areas being considered for drainage ponds are shown in neon green within existing right-of-way (ROW) at the I-10 and Spur 330 interchange and/or on a 1.8-acre area of proposed ROW on the north side of I-10, east of Spur 330.
Approximately 5.4 acres of new right-of-way (ROW) would be required for the proposed project design.

The proposed project would potentially displace one non-residential structure which houses two businesses.

A City of Baytown city limits monument would be relocated.

A temporary construction easement would likely be needed to construct the eastbound mainlanes bridge.

Information regarding the Relocation Assistance Program for displaced persons and businesses can be found on the TxDOT website, by calling TxDOT offices at 713.504.9628, or at the in-person open house.
Project Details: Additional ROW and Potential Displacements
