Construction Cost	Green	Yellow	Red	Yellow	Red
Public & Stakeholder Input	We Need Your Input	We Need Your Input	We Need Your Input	We Need Your Input	We Need Your Input

Does not meet or minimally meets needs and goals

Somewhat meets needs and goals

Best meets needs and goals

The study team screened each alternative to determine how well it addressed the needs and goals identified for this section of I-610 South.

The study team is asking for input on which conceptual alternative best offers solutions for the needs of the corridor. The Public and Stakeholder Input category will be completed once input is received.

Input received at this public meeting will assist in identifying a preferred alternative.
