COMMENT/RESPONSE MATRIX

These meetings are being held during the research and planning stages of potential projects along the corridor, as such, we have heard the issues and concerns brought forth from the public, outlined in their comments below. These issues and concerns have been duly noted and will assist in developing decisions going forward with the continued planning for this corridor and continued discussions during this process.

1	Joyce Almaguer-Reisdorf	3/26/2018	Email	I would like to see access for multimodal users a prime consideration in this project, particularly since this corner of town includes many pedestrians, cyclists, and transit users.	Bicycle & Pedestrian Connectivity
1-a	Joyce Almaguer-Reisdorf	3/26/2018	Email	I would like to see planning for pedestrians and cyclists traveling under and around the freeway with wider sidewalks, more defined crosswalks, and clearer signage.	Bicycle & Pedestrian Connectivity
1-b	Joyce Almaguer-Reisdorf	3/26/2018	Email	I would also like to see improved connection around the METRO Park and Ride facilities for pedestrians and cyclists, who might be able to walk or cycle as part of the last leg of their journey. The Hillcroft Transit facility, for instance, is adjacent to property that could be used to connect travelers along Westpark as well as along the Hillcroft North-South corridor.	Bicycle & Pedestrian Connectivity
1-c	Joyce Almaguer-Reisdorf	3/26/2018	Email	I also hope to see improvements along the exits and on-ramps for Chimney Rock, Westpark, Hillcroft, the lane-switching there in combination with the curve can make for some close calls.	Ramp Improvements
1-d	Joyce Almaguer-Reisdorf	3/26/2018	Email	While sound walls are in place along some parts of 59, their upkeep has been lacking (due to graffiti, struggling landscaping) and their efficacy questionable. I would like to see considerations for below-grade sections of 59 wherever possible.	Noise
2	Dennis and Shona Bascon	3/27/2018	Public Meeting	Interesting and informative.	Process
2-a	Dennis and Shona Bascon	3/27/2018	Public Meeting	Additional lanes are only okay if they are on a second level. No widening of the freeway.	Lane Capacity
2-b	Dennis and Shona Bascon	3/27/2018	Public Meeting	Elevated trains make sense but not ground level that could be flooded and unusable.	Transit
2-c	Dennis and Shona Bascon	3/27/2018	Public Meeting	Loud sound from freeway.	Noise

Comment Number		Date Received	Source	Comment Topic	Category
2-d	Dennis and Shona Bascon	3/27/2018	Public Meeting	More trains.	Transit
2-e	Dennis and Shona Bascon	3/27/2018	Public Meeting	Bike needs to be off the road. Drivers aren't too nice to bikers.	Bicycle Connectivity
3	Mike Bercu	4/7/2018	Email	Plan for ways to take cars off the road. This will allow to compensate for growth and be more cost effective. Look for ways to plan and work more closely to reduce cars. 1) City of Houston, 2) Commissioner's Court, 3) METRO, 4) Private companies, commercial properties (town square), 5) Look for out-of-box solutions.	Vehicle Reduction
3-a	Mike Bercu	4/7/2018	Email	Just building new lanes is not the way. Your planning must be more and completely aligned with the region and community.	Lane Capacity; Process
4	Karen Cardwell	3/27/2018	Public Meeting	Very good visual media.	Process
4-a	Karen Cardwell	3/27/2018	Public Meeting	Commenter indicated location of issues on survey map at I-69 and 610, I-69 curve at Westpark Tollway, and I-69 near Bellaire. *See Karen Cardwell survey in Section D, page 141 of Documentation of the Public Meeting.*	Issues
5	Dale Davidson	3/27/2018	Public Meeting	Sound and pollution impact on adjacent neighborhoods.	Noise; Pollution
6	Lee Anne Dixon	3/27/2018	Public Meeting	HOV/managed lanes bi-directional 24/7. Express lanes with no exits downtown to B8.	HOV/Managed Lanes
7	Johnette Duff	3/29/2018	Email	I have supported myself by renting the garage apartment through Airbnb and I live in the main house. I am concerned not only for my home but also for my source of income - it is my understanding that the town homes on Oakley and Jack may be torn down and I am concerned that, as a 67-year-old diabetic widow, I will not only be thrown out of my home but lose my income - as you can imagine, this is a serious concern for me!!!	Displacement; Economic Loss

Comment Number		Date Received	Source	Comment Topic	Category
7-a	Johnette Duff	3/29/2018	Email	I have been informed that the previous Spur construction took years and involved nighttime jack hammering! So, even if my property is not to be torn down, I would lose potentially years of income - this is pretty much life and death to me at this point, as I can't afford my insulin if I don't have an income.	Noise; Economic Loss
8	Val Eberwein	3/27/2018	Public Meeting	The wall between freeway and houses reduces most of the freeway noise. A large portion of noise currently comes from traffic on bridges higher than the wall. When a yard location can see traffic on the bridge, you can hear the traffic. A short wall on the side of the bridges may block this noise.	Noise
9	John Geiss	3/29/2018	Public Meeting	Please consider noise reducing road surfaces for the sunken portion of I-69 from Spur 527 to Shepherd. A lot of traffic noise is generated there and the area is all residential.	Noise
10	Clint Harbert and Edmund Petry (METRO)	4/5/2018	Email	"Provide access from the HOV/HOT lanes on IH 69 to METRO facilities by constructing a bi-directional connector ramp from the HOV/HOT lanes into the Park & Ride facilities." The commenter provided maps, concepts, configurations and locations. *See Clint Harbert METRO letter in Section D, page 181 of the Documentation of Public Meeting.*	Ramp Improvements
10-a	Clint Harbert (METRO)	4/5/2018	Email	To accommodate existing and future commuter bus service, TxDOT should provide 2-way HOV/HOT lanes within the METRO Service area. METRO recommends that the HOV/HOT lanes be in accordance with the Max-Lane concept proposed in TxDOT's North Houston Highway Improvement Project (NHHIP). METRO recommends that the Max-Lanes accommodate 2 lanes in each direction, similar to HOV/HOT configurations with 1 lane as a dedicated bus lane and standard shoulders along IH 69 from Spur 527 to Beltway 8 / W. Airport Blvd (terminus of study area).	HOV/Managed Lanes

10-b	Clint Harbert (METRO)	4/5/2018	Email	In order to improve on-time performance, METRO is exploring the concept of a commuter bus aerial station at Greenway Plaza/Edloe location and another at a Sharpstown/Bellaire location. Each aerial station is to be located in the IH 69 median therefore requiring pedestrian bridges from station to ground level.	Pedestrian Connectivity
10-c	Clint Harbert (METRO)	4/5/2018	Email	In considering the North Houston Highway Improvement Project (NHHIP), METRO also recommends that HOV/HOT lane not only extend into a future HOV/HOT on IH 69 from Spur 527 but also provide a connector to Wheeler Transit Center vis-a-vie an elevated connector; as not to conflict with existing at-grade Red Line Light Rail.	Ramp Improvements
10-d	Clint Harbert (METRO)	4/5/2018	Email	METRO requests that it remain involved throughout the project development process.	Process
10-e	Clint Harbert (METRO)	4/5/2018	Email	METRO requests that all bus routes and facilities remain operational during construction. "Temporary service impact may require a level of construction mitigation for all commuter bus service to existing Park & Ride or Transit Centers." The commenter provided a list of specific service routes with potential impacts. *See Clint Harbert METRO letter in Section D, page 181 of the Documentation of Public Meeting.*	Construction Impacts
10-f	Clint Harbert (METRO)	4/5/2018	Email	Sidewalks along frontage road are needed, particularly around and near the Park and Ride areas.	Pedestrian Connectivity
10-g	Clint Harbert (METRO)	4/5/2018	Email	Preserve METRO ROW along the University Corridor where impacted by proposed IH 69 modifications.	ROW
10-h	Clint Harbert (METRO)	4/5/2018	Email	Provide sufficient space for bike facilities along all major thoroughfares crossing IH 69.	Bicycle Connectivity
10-i	Clint Harbert (METRO)	4/5/2018	Email	Create safe and direct pedestrian/bike crossing from the east side of IH 69 to the Hillcroft Park & Ride	Pedestrian & Bicycle Connectivity

Comment Number		Date Received	Source	Comment Topic	Category
10-j	Clint Harbert (METRO)	4/5/2018	Email	Provide sufficient space under IH 69 for a bike facility along both banks of Brays Bayou between Bissonnet Street and Imogene Street for a first/last mile connection to several local bus routes.	Bicycle Connectivity
10-k	Clint Harbert (METRO)	4/5/2018	Email	Provide sufficient space under IH 69 for a trail connection from Keegans Bayou to Westwood Park & Ride at White Chapel Road.	Bicycle & Pedestrian Connectivity
10-l	Clint Harbert (METRO)	4/5/2018	Email	Provide sufficient space under IH 69 for a trail connection from Keegans Bayou to West Bellfort Park & Ride.	Bicycle & Pedestrian Connectivity
10-m	Clint Harbert (METRO)	4/5/2018	Email	Preserve or enhance pedestrian access points across IH 69.	Pedestrian Connectivity
10-n	Clint Harbert (METRO)	4/5/2018	Email	Aerial pedestrian bridges serving aerial rail stations at Greenway Plaza/Edloe and Sharpstown/Bellaire to provide station to ground	Pedestrian Connectivity
10-o	Clint Harbert (METRO)	4/5/2018	Email	With regards to HOV /HOT lanes, from the segment of the IH 69 between Spur 527 and site of the Uptown Transit Center (see Appendix A), due to the potential land use limitations, it is feasible to consider section a two-way HOV with only 1 lane in each direction. All vehicles will need to be able to use this lane. The minimum section could be considered as follows: Barrier Wall - 2' shoulder - 12' lane - 8' shoulder - 12' lane - 2' shoulder - barrier wall. This equates to 36' between the barrier walls (similar to Katy CBD Ramp configuration).	HOV/Managed Lanes
11	John and Doris Lacamu	3/27/2018	Public Meeting	HOV/Managed Lanes (more exits and entrances)	HOV/Managed Lanes
11-a	John and Doris Lacamu	3/27/2018	Public Meeting	Additional lane capacity - without widening. More lane capacity by going up or double freeway.	Lane Capacity
12	Mike Laster	3/27/2018	Public Meeting	Limit underpass extra space to prevent camps or creative use of space - storage or art.	Intersection Improvements
13	Andrew Le	3/29/2018	Public Meeting	Great presentation; a wealth of knowledge.	Process
14	Paul Lester	3/29/2018	Public Meeting	Don't add more lanes. More lanes only provide a temporary relief, attracts more traffic in the long run.	Lane Capacity

Comment Number		Date Received	Source	Comment Topic	Category
14-a	Paul Lester	3/29/2018	Public Meeting	Look at alternative capacity - high speed transit.	Transit
14-b	Paul Lester	3/29/2018	Public Meeting	More HOV capacity.	HOV/Managed Lanes
15	Steve Longmire	3/29/2018	Public Meeting	Need for multi-lane, 24/7 managed lanes.	HOV/Managed Lanes
15-a	Steve Longmire	3/29/2018	Public Meeting	Need to separate 18-wheel and large trucks from auto traffic.	Dedicated Truck Lanes
15-b	Steve Longmire	3/29/2018	Public Meeting	Please cut on/off ramp number in half between Spur 527 and Fountainview. People use the ramps to bypass traffic lights on feeders congesting freeway. Ramps dump exit traffic too close to intersections to safely move to turn right at intersection.	Ramp Improvements
15-c	Steve Longmire	3/29/2018	Public Meeting	Need much better lighting in the freeway canyon near Spur.	Lighting
15-d	Steve Longmire	3/29/2018	Public Meeting	Historic neighborhoods matter. The Historic District of First Montrose Commons and Audubon Place are not shown on the panel 5 map. The FMC HD contains the last four of the original bute addition mansions that survived the demolition of that neighborhood to build the Spur in 1959-1960. Two are protected landmarks. One is a Texas landmark. Contact me if you need more information.	Historic Resources
15-e	Steve Longmire	3/29/2018	Public Meeting	Public health hazard from poor design. Please fix the open supports under Spur 527 at Richmond! You can at least put bird nets over them. The enormous population of roosting pigeons produces a slick disease-ridden mess on the sidewalks under the underpass where we want to walk to the METRO rail. Future: Do not build open support overpass. Build like TX 288 over Wheeler Ave.	Safety
16	Erik Manning	3/29/2018	Public Meeting	Increase public transportation. Too much congestion that won't be solved by more lanes. Work with local, state, and federal agencies to improve transit options (bus, train, etc.).	Transit
17	Stephanie Mays	3/29/2018	Public Meeting	I have no idea how to do it. I wish we could involve better rail transit options.	Transit

Comment Number		Date Received	Source	Comment Topic	Category
17-a	Stephanie Mays	3/29/2018	Public Meeting	What about a two level freeway like Dallas has in the north end of downtown?	Lane Capacity
17-b	Stephanie Mays	3/29/2018	Public Meeting	Using Westpark Tollway-entering on I-69 after Fountainview can be challenging to enter/merge over after passing under 610. So many lanes - 610/69 merging - just too congested at times and it comes up quickly when you cannot move over. Not a huge issue when discussing other options with this study, just a comment.	Ramp Improvements
18	Margaret Mitchell	3/27/2018	Public Meeting	Build separate local and express lanes. Most problems caused by too many people merging in too many places and deciding at last minute.	Lane Capacity
18-a	Margaret Mitchell	3/27/2018	Public Meeting	Question: yellow/orange section between Fondren & Bellaire - unaware of utilities - just houses. Also, when did that area become eligible for historic designation? Commenter indicated areas on survey map. *See Margaret Mitchell survey in Section D, page 160 of Documentation of the Public Meeting.*	Utilities; Historic Resources
19	Dixie Mullins	3/27/2018	Public Meeting	Commenter indicated locations of issues/concerns or points of interest: I-69 at Spur 527 and I-69 at Loop 610. *See Dixie Mullins survey and map in Section D, page 162 of the Documentation of Public Meeting.*	Issues
20	Adrian Ozuna	3/29/2018	Public Meeting	Increase public transportation. Too much congestion and more lanes doesn't solve the issue.	Transit; Congestion
21	Travis Peiffer	4/2/2018	Email	I'd like TxDOT to consider options for covering the below grade sections of I-69; not unlike what is proposed through downtown.	Aesthetics
21-a	Travis Peiffer	4/2/2018	Email	The dirt and noise that still permeate the sound walls are disruptive. This might allow for more scenic connections of north and south neighborhoods, reduce sound and noise pollution and remove the awful mast light fixtures that indiscriminately illuminate everything but the road.	Noise

Comment Number		Date Received	Source	Comment Topic	Category
22	Ethan Perry/John Geiss (Richwood Place Civic Association)	4/3/2018	Email	The commenter is concerned with excessive road noise and wants TxDOT to consider implementation of noise reducing technologies along I-69 between Kirby Dr. and Montrose St. "We are inquiring to find out if there are protocols in place to address excessive road noise associated with specific high traffic volume/speed thoroughfares within the limits of the City of Houston, specifically as it relates to the selection of road surfacing materials used on road segments that pass in close proximity to residential neighborhoods." *See Ethan Perry's letter in Section D, page 197 of the Documentation of Public Meeting.*	Noise
23	Patrick Pheifer	3/27/2018	Public Meeting	At 4-7 p.m., traffic backs up heading north at 59/69 @ 45/59/288, causing back up to Kirby Dr. or more! That intersection needs to be improved.	Interchange Improvements
24	Carolynn Ruth (Public Storage)	3/1/2018	Email	Do the project plans contemplate acquiring any portion of Public Storage's property, whether in fee or easement, or for a temporary construction easement? Please send me drawings or plans showing the project design near Public Storage's property, and a plat of any potential or proposed taking of Public Storage's property.	ROW
25	Michael Salavarria	3/29/2018	Public Meeting	Thank you for such a well-designed and coordinated public survey experience! It is such a pleasure to see how well-executed this event is. I especially like the free parking, introductory video, and friendly, knowledgeable people on hand to explain the exhibits. Kudos to all! Thank you for seeking our input.	Process
25-a	Michael Salavarria	3/29/2018	Public Meeting	Please spend the money to buy the land needed to expand the R.O.W. necessary to relieve the congestion. You did this on I-10 from 610 to Beltway 8 (and beyond) and the difference is like night and day. Improved traffic flow requires more traffic lanes.	Lane Capacity; ROW
26	Amy Satcher	3/29/2018	Public Meeting	Well put together and plenty of help to answer questions.	Process

26-a	Amy Satcher	3/29/2018	Public Meeting	Homeless people living on site and trash on TxDOT property at Richmond and the Spur.	?
27	Carrie Schwartz-Hill	4/11/2018	Email	The estimated percentage of heavy vehicles such as trucks (4%) seems very low.	Process
28	Oscar Slotboom	3/25/2018	Email	The commenter is concerned with expanding, reconfiguring and modifying the freeway. "I support a major expansion of this corridor, including right-of-way widening through Sharpstown." He outlined goals for future improvements. *See Oscar Slotboom letter in Section D, page 201 of the Documentation of Public Meeting.*	Transit
28-a	Oscar Slotboom	3/25/2018	Email	Addition of regular general-purpose (non-tolled) capacity in certain sections: Add at least two general purpose lanes (one each way) to the section with only eight main lanes in the Sharpstown area, to provide a minimum of 10 general purpose main lanes throughout the entire corridor.	Lane Capacity
28-b	Oscar Slotboom	3/25/2018	Email	Expand the managed (MaX) lanes: Need bidirectional MaX lanes inside the Loop, at least two lanes in each direction; Outside the loop, need at least two MaX lanes in the peak direction, and 2x2 bidirectional is desirable; The section from the Westpark curve to Greenway Plaza may warrant 3 MaX lanes in each direction.	HOV/Managed Lanes
28-c	Oscar Slotboom	3/25/2018	Email	Major reconfiguration of the section from Hillcroft to Loop 610 to include: A new separate ramp for northbound traffic connecting to Loop 610; A new southbound collector facility from Rice to south of Hillcroft for southbound traffic entering the freeway; Converting Westpark Road to the northbound frontage road from the Westpark curve to Rice Boulevard; Adding new and improved connections between the Westpark Tollway, MaX lanes and main lanes.	Ramp Improvements

28-d	Oscar Slotboom	3/25/2018	Email	Expansion and reconfiguration inside the loop to eliminate problem spots: Incremental expansion of the Montrose trench to ensure seamless integration with the planned improvements east of Spur 527; Measures to mitigate or eliminate the problems caused by the close proximity of the IH 69 and Westpark Road intersections with Buffalo Speedway and Weslayan. This potentially includes turning a section of Westpark into the northbound frontage road; Measures to improve overloaded entrance and exit ramps.	Lane Capacity; Ramp Improvements
28-e	Oscar Slotboom	3/25/2018	Email	Improvements to entrances/exit points, potentially including braided ramps, two-lane entrances, and larger holding areas for metered ramps.	Improved Travel Options
28-f	Oscar Slotboom	3/25/2018	Email	Improvements to poorly performing intersections: Diverging diamond or SPUI should be considered for Hillcroft.	Interchange Improvements
28-g	Oscar Slotboom	3/25/2018	Email	The commenter attached the following maps: Summary Map of Needed Improvements; Westpark to Loop 610, Major Redesign and Reconfiguration; Loop 610 to Kirby: Intersection Improvement, entrance ramp improvement, and change Westpark Road to northbound frontage road; Shepherd to Spur 527: Adjustments to ensure efficient interface with planned improvements east of Spur 527;Sharpstown Improvements; Summary of Corridor Performance Issues (non-comprehensive); Hillcroft to Westpark; Westpark to Loop 610; Loop 610 to Buffalo Speedway; and Shepherd to Spur 527. *See Oscar Slotboom letter in Section D, page 201 of the Documentation of Public Meeting.*	Improved Travel Options
28-h	Oscar Slotboom	3/27/2018	Public Meeting	Needed improvements will require right-of-way acquisition. I support the right-of-way acquisition to improve the corridor.	ROW Acquisition

The study encompasses I-69 from Spur 527 to Beltway 8 in Harris County and includes the cities of Houston, Bellaire and West University. The purpose of the public meeting is to introduce the I-69 PEL study and receive comments on information collected to date. Additionally, TxDOT would like to receive input on issues and ideas for future corridor goals.

You, or your representative, are cordially invited to attend one of the following meetings. Both public meetings will be in open house formats (no formal presentations), at 5:30 p.m.

Notice of Public Meeting
I-69: From Spur 527 to Beltway 8
Planning & Environmental Linkages (PEL) Study
Project No. 0027-13-218

The Texas Department of Transportation (TxDOT) Houston District will hold two public meetings regarding the I-69 Planning and Environmental Linkages (PEL) study. The study encompasses I-69 from Spur 527 to Beltway (BW) 8 in Harris County and includes the cities of Houston, Bellaire and West University. The I-69 PEL study is a high-level, early-planning transportation process. The goal of a PEL study is to gather feedback during planning to inform the environmental review process, including the National Environmental Policy Act (NEPA).

The Texas Department of Transportation (TxDOT) Houston District will hold a set of public meetings regarding the I-69 Planning and Environmental Linkages (PEL) study. The study encompasses I-69 from Spur 527 to Beltway (BW) 8 in Harris County and includes the cities of Houston, Bellaire and West University. The I-69 PEL study is a high-level, early-planning transportation process. The goal of a PEL study is to gather feedback during planning to inform the environmental review process, including the National Environmental Policy Act (NEPA).

The public meetings will be held on two separate nights and will be open house formats (no formal presentations) from 5:30 p.m. to 7:30 p.m.

Tuesday, March 27, 2018: Clarewood House (Auditorium),
7400 Clarewood Dr., Houston, TX 77036 (parking entrance on Reims Rd.)

Thursday, March 29, 2018: Four Points by Sheraton (Plaza A),
2828 Southwest Freeway, Houston, TX 77098

The purpose of the public meetings is to introduce the I-69 PEL study and receive comments on information collected to date. Additionally, TxDOT would like to receive input on issues and ideas for future corridor goals.

Maps of the corridor study and exhibits will be available at the public meeting. This information will also be available for review by appointment Monday through Friday from 8:00 a.m. to 5:00 p.m., excluding state holidays, at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007. To schedule an appointment, please contact Wahida Wakil, P.E., at (713) 802-5513. Project information can also be viewed at: *https://www.txdot.gov/inside-txdot/projects/studies/houston/houston-pel-i-69.html*

Written comments may be submitted at the meeting; by mail to the TxDOT Houston District Office, Director of Project Development, P.O. Box 1386, Houston, Texas 77251; or electronically to HOU-PIOWebMail@txdot.gov or *https://www.txdot.gov/inside-txdot/projects/studies/houston/houston-pel-i-69.html.* Please reference Project No: 0027-13-218. Written comments must be postmarked or submitted electronically by Friday, April 13, 2018.

Materials for the public meeting will be provided in English and Spanish. Also, Chinese, Vietnamese and Spanish-language interpreters will be present at the meeting. Persons interested in attending the meeting who have other communication or accommodation needs are encouraged to contact TxDOT's Public Information Office, at (713) 802-5076. PEL Study Purpose and Benefits

The I-69 PEL study is a high-level, early-planning study process that represents an approach to transportation decision making that considers environmental, community and economic goals early in the planning stage and carries them through project development, design and construction. The goal of a PEL study is to gather feedback during planning to inform the environmental review process, including the National Environmental Policy Act (NEPA). More information about the purpose and benefits of this kind of study, as well as the I-45 PEL and I-10 PEL studies, can be found on the Houston Planning and Environmental Linkage Studies page.

At a high level, a PEL study:

- Identifies transportation issues
- Develops the need and purpose for proposed improvements
- Helps inform planning decisions through public feedback
- Streamlines the project delivery process for NEPA
- Identifies environmental constraints, issues and potential future projects

PEL Timeline and Process

Following is a high-level timeline; ongoing agency and stakeholder involvement occurs throughout the entire PEL process.

Phase I: Winter 2017 - Summer 2018

- Conduct data collection
- Analyze existing conditions
- Determine corridor needs and concerns
- Identify vision for the corridor with community input

Phase II: Fall 2018 - Summer 2020

- Develop and screen conceptual ideas and alternatives that support the corridor vision
- Consider viable alternatives
- Present PEL findings

After the PEL study process, the NEPA process will then be initiated and additional public involvement will be required and planned.
