

# SH 7 (Main St) - Lanana Creek Bridge Replacement Project

## Project Background

SH 7 (Main Street) provides through and local access to the downtown district of Nacogdoches. In 2018, TxDOT's Bridge Division allocated Category 6 Highway Bridge Program funds to the Lanana Creek bridge for replacement in 2026.

## Proposed Improvements

The proposed project would include:

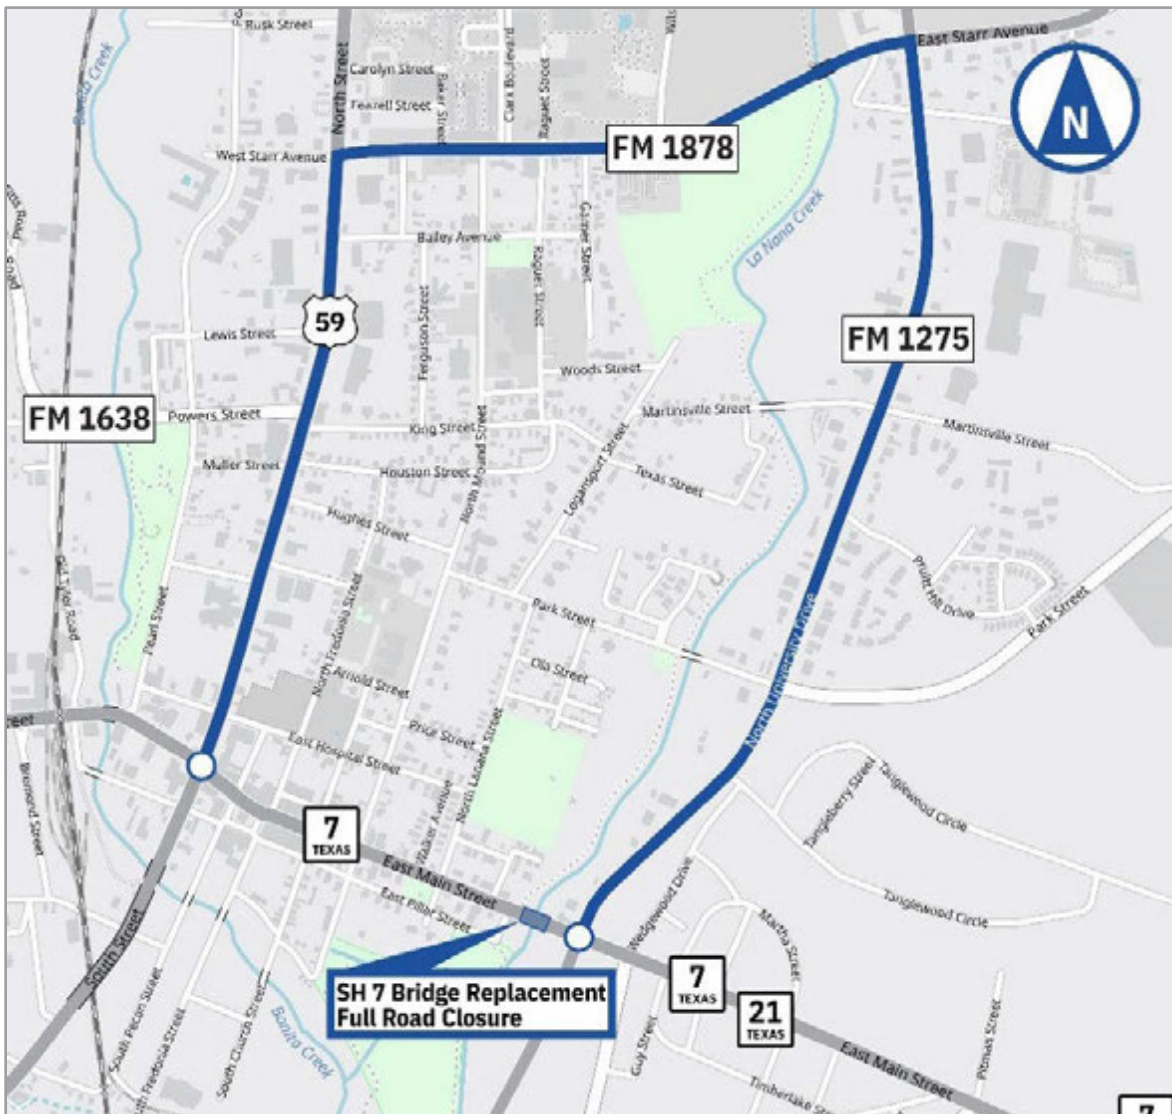

- Construction of new bridge with four 12-foot-wide travel lanes, two 5-foot-wide shoulders, and 6-foot-wide sidewalks in each direction
- Construction of 6-foot sidewalks through project limits, including new access ramp to Lanana Creek Trail
- Realignment of Rulfs Street to provide improved sight distance
- Approximately 2.27 acres of additional right of way which includes six non-residential displacements and property from Lanana Creek Trail and Master Gardener's Demonstration Garden
- Temporary closure of SH 7 (Main Street) and Lanana Creek Trail at the bridge during construction which is estimated to be nine months
- Estimated construction cost \$4.8 Million and anticipated to begin in 2026

# Detour Information

## SH 7 (main street)

The proposed bridge would be built on the existing alignment; therefore, SH 7 (Main St.) at the bridge would be closed during construction. Rulfs street will be closed for rebuilding as well. Construction of new bridge would take approximately nine months to complete, pending weather.

SH 7 will be detoured using FM 1275 University Drive, FM 1878 Starr Avenue, and US 59 North Street which is approximately 3.5 miles in length.

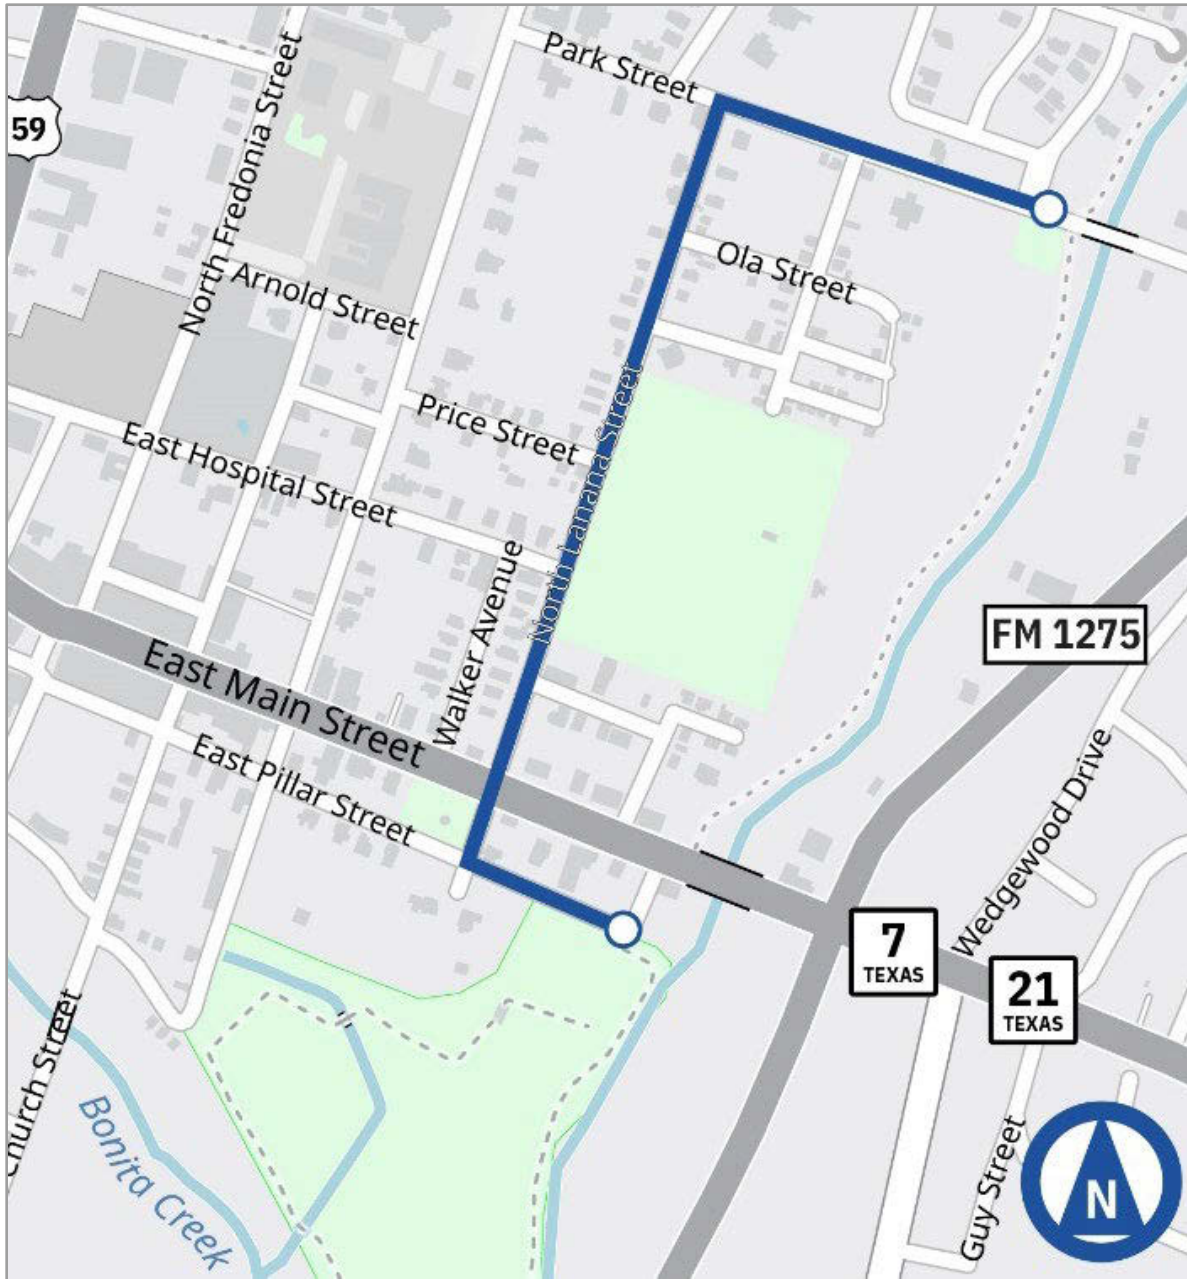

# Detour Information

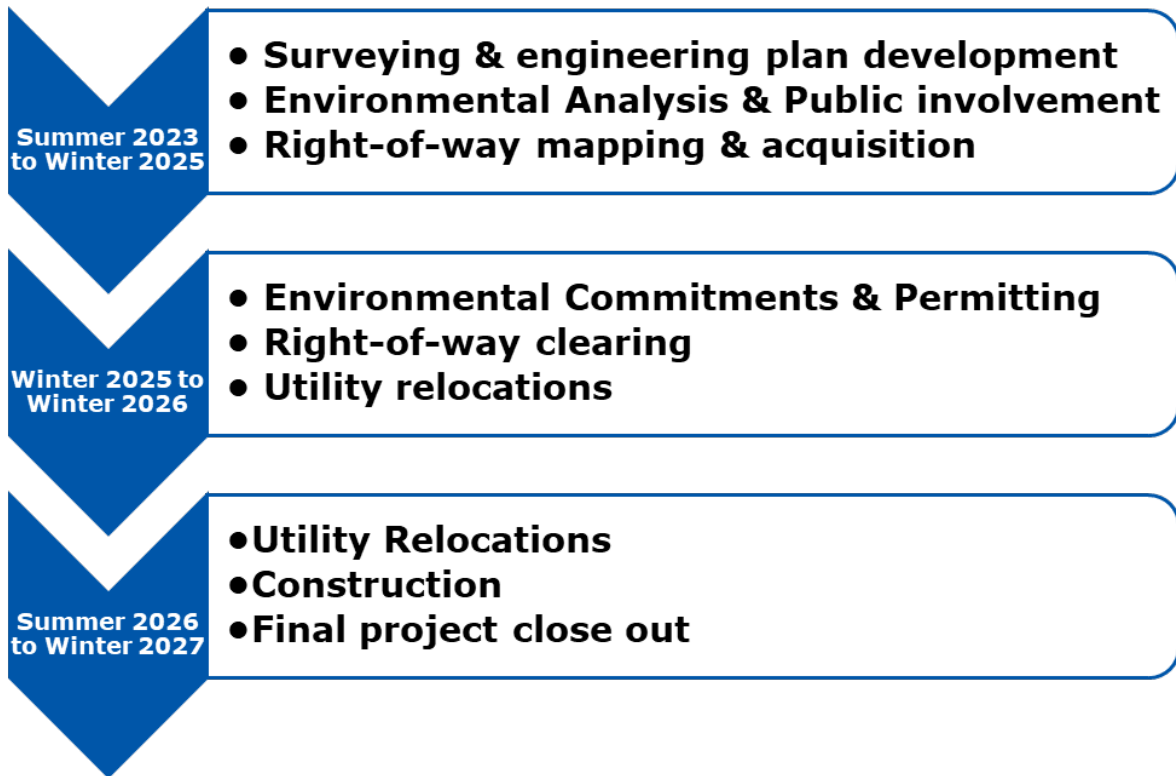

## Lanana Creek Trail

The portion of the Lanana Creek Trail that passes underneath the bridge would also be closed during the construction and detoured around the construction area.

Lanana Creek Trail will detour utilizing Park Street, North Lanana Street, and East Pilar Street to divert people around the project area.
