

I-35 and US 83 Upgrades Fact Sheet

The Texas Department of Transportation (TxDOT) is proposing to upgrade I-35 and US 83 which includes I-35 from 2.7 miles north of Uniroyal Interchange to US 83 Interchange and from Los Botines Lane to I-35 and US 83 from 1 mile north of SH 255 to Los Botines Lane in Webb County, Texas.

Need for Improvements

There is a need to alleviate traffic congestion and improve safety and mobility on the two routes.

The improvements include:

- Widening I-35 to three main lanes in each direction
- Converting the existing two-way, two-lane frontage roads to one-way, two-lane frontage roads and elevate over the railroad to make continuous frontage roads
- Relocating and redesigning the I-35/US 83 interchange
- Constructing direct connector bridges for I-35 and US 83
- Upgrading and widening US 83 in preparation for the future I-27

Public Involvement

TxDOT is committed to working closely with the local community and stakeholders. The project team is taking all input received to date into account and this valuable feedback will be used to help finalize the project's design.
