# US 75

## From Collin County Line to FM 1417

### Project Overview

The Texas Department of Transportation (TxDOT) is proposing to widen US 75 from Collin County Line to FM 1417 in Grayson County, Texas.

The purpose of the project is to add capacity, improve traffic operations by converting frontages roads from two-way to one-way operation, provide frontage road turn around opportunities, and ramp improvements along US 75.

### Proposed Scope

The proposed project consists of three 12-foot-wide mainlanes with 10-foot to 11-foot-wide inside shoulders and 10-foot-wide outside shoulders in each direction separated by a two-foot-wide concrete traffic barrier. The proposed project converts frontage roads from two-way (where applicable) to one-way operation and retains existing widths (two 10-foot-wide travel lanes). The proposed project reconstructs or modifies existing ramps, where applicable, to support the mainlane widening and frontage road conversion.

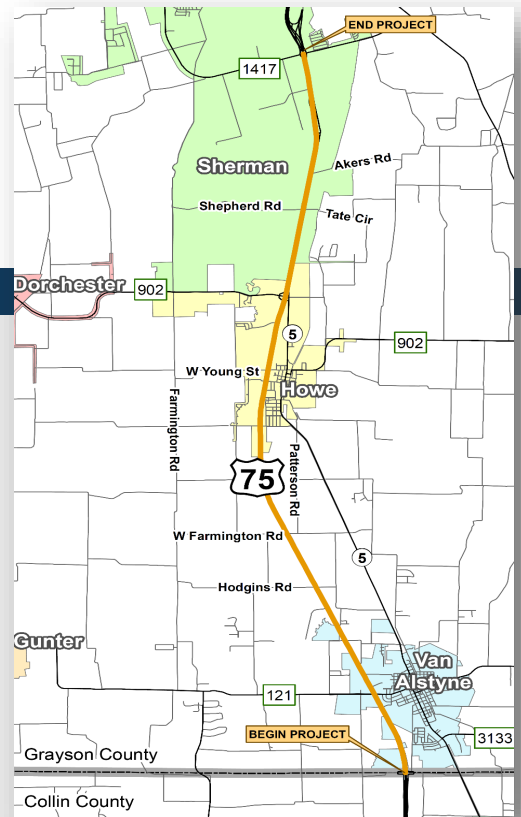

### Limits

The proposed project extends 14 miles from Collin County Line to FM 1417

### Right of Way

No additional right of way would be required for the proposed project. There are several adjacent existing drainage easements; however, no new easements are proposed.

### Project Location Map

Written comments may be submitted online or by mail or email to the TxDOT contact shown here.
