

NOTICE OF PUBLIC HEARING FM 907 (Alamo Rd)

From Nolana Loop to I-2
CSJ: 1586-01-069

The Texas Department of Transportation (TxDOT), in conjunction with Hidalgo County and the city of Alamo, is proposing to improve Farm-to-Market (FM) 907 (Alamo Road) in Hidalgo County, Texas. Pursuant to Texas Administrative Code Title 43, Part 1, Chapter 2, Subchapter E, §2.107 and §2.108 and Code of Federal Regulations, Title 23, Chapter I, Subchapter H, §771.111 and Title 40, Chapter V, §1506, this notice advises the public that TxDOT will be conducting a public hearing on the proposed project. The purpose of the hearing is to present the planned improvements and to receive public comment on the proposed project.

The Meeting details are:

Tuesday May 16, 2017
Audie Murphy Middle School Cafeteria
924 Sioux Rd, Alamo, Texas
Open House Period: 5:00 to 6:00pm
Presentation and Public Comment: 6:00pm

FM 907 is currently a 40-foot wide rural two-lane roadway consisting of two 12-foot-wide travel lanes within an 80 to 100 foot-wide right-of-way (ROW). TxDOT is proposing to widen and reconstruct FM 907 from Nolana Loop to I-2 (also known as US 83). The total distance of the project is approximately 2.5 miles.

The proposed project would provide a four lane roadway with two outside 14-foot-wide travel lanes, two 11-foot- wide inside travel lanes and a 12-foot-wide continuous left turn lane within existing ROW. The existing ROW varies between 80 to 100 feet in width. Drainage would be provided by an underground storm drain system.

The purpose of the proposed project is to improve mobility, provide pedestrian accommodations, and complete the roadway network.

The proposed project would require approximately 0.32 acres of additional ROW in corner clips. Although additional ROW is required, no residential or commercial structures would be displaced. Information concerning services and benefits available to affected property owners and information about the tentative schedule for ROW acquisition may be obtained from the district office at the address listed below. A total of 3.6 acres of floodplains would be impacted by the proposed project.

Any environmental documentation or studies, maps showing the project location and design, tentative construction schedules, and other information regarding the project are on file and available for inspection Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. at the TxDOT Pharr District office located at 600 W. Interstate 2, Pharr, Texas. Please call TxDOT Project Manager, Javier Martinez, P.E. at (956) 702-6107, to make an appointment. This information will also be available for inspection at the hearing. Comments must be received up to 15 days after the hearing, May 31, 2017 to be part of the official hearing record.

The hearing will be conducted in English. Spanish translation services will be available. Persons interested in attending the hearing who have special communication or accommodation needs, are encourage to contact Norma Robledo at 956-702-6161 or at Norma.Robledo@txdot.gov at least five working days prior to the meeting. Every reasonable effort will be made to accommodate these needs. For more information about the project please visit www.txdot.gov, keyword: "FM 907".

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.
