

WEST BOULEVARD

From FM 3248 to FM 802

CSJ 0921-06-340

What is being proposed?

The Cameron County Regional Mobility Authority (CCRMA) and the Texas Department of Transportation-Pharr District (TxDOT) are proposing to develop a roadway project that would construct a two-lane roadway and a sidewalk within the former right-of-way of the West Rail railroad from Farm-to-Market Road (FM) 3248/Alton Gloor Boulevard to FM 802/Ruben M Torres Boulevard in Brownsville, Cameron County, Texas. The new roadway would be named West Boulevard.

Why is this project needed?

The overall objective of constructing West Boulevard is to improve the operational efficiency of the roadway network in Brownsville. By building the roadway in the former location of a railroad, CCRMA and TxDOT will avoid displacing any residents or businesses and minimize the environmental impact.

Benefits of the project

When complete, West Boulevard will provide the people of Brownsville with a multi-modal corridor that will allow cyclists, pedestrians, and motorists a new route to travel from north to south. With its intersection at Madrid Avenue, West Boulevard would also provide a new way for students and their parents to get to and from Pullam Elementary.

About the Project

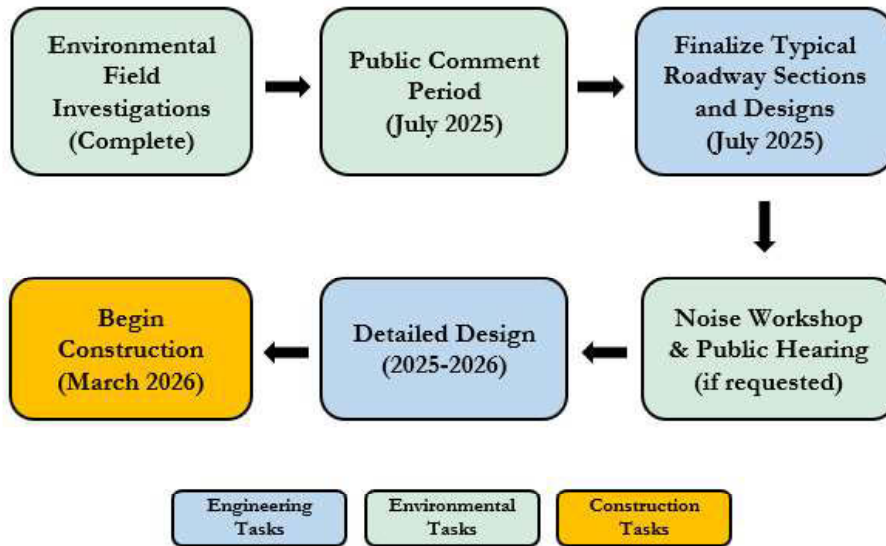

- West Boulevard would intersect, from north to south: FM 3248, Madrid Avenue, Morrison Road, and FM 802.
- The project would not displace the West Rail Trail.
- A six-foot-wide sidewalk on the east side of the roadway would provide a new north-south travel route for pedestrians.

Project Planning

The next steps for the West Boulevard project are to consider comments received from the public and to incorporate them into the project, as feasible. A project schedule is provided below. Note that this schedule is preliminary and subject to change as the project advances.

Next Steps for the Project

How to provide your comments on the project

- Email comments may be sent to WestBlvd@rrpeng.com by **August 1, 2025**.
- Written comments may be mailed to RRP Consulting Engineers at 5400 North 10th Street, McAllen, TX 78504. Comments should be postmarked by **August 1, 2025**.

We encourage you to submit your comments on the West Boulevard project. By providing your comments, you are playing an important part in the development of the project. Thank you for participating!
