

# SH 16

## from West Jett Road to Stacey Road

Bexar County, Texas

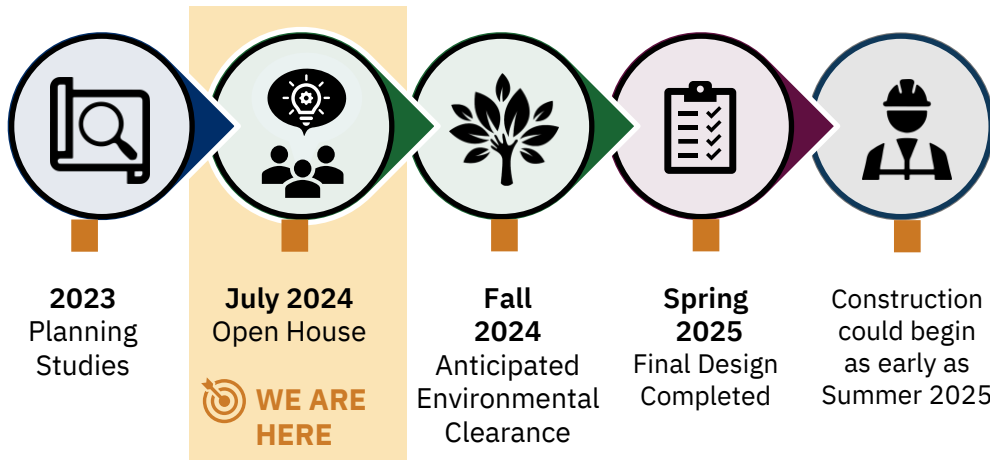

CSJ: 0613-01-070

### Project Overview

The Texas Department of Transportation (TxDOT) is proposing safety improvements to SH 16 from West Jett Road to Stacey Road in Von Ormy, Bexar County, a length of approximately 3.6 miles.

The purpose of the proposed project is to improve safety for vehicular traffic and reduce the conflict points where crashes are most likely to happen. The roadway currently consists of two lanes that run in each direction and are separated by a grassy median, with locations to cross over both lanes along SH 16 at several cross streets. TxDOT proposes to close the crossovers and install unsignalized U-turn lanes. Traffic from incoming and outgoing side streets must turn right first and then make a U-turn at the new location. All improvements would be constructed within the existing right of way.

### Anticipated Project Timeline

This timeline is subject to change.

### What is the purpose of the project?

- ✓ Improve safety and operations along the corridor.
