

# US 181

TxDOT San Antonio District

## from Palm Park Blvd to Eagle Creek Ranch Blvd

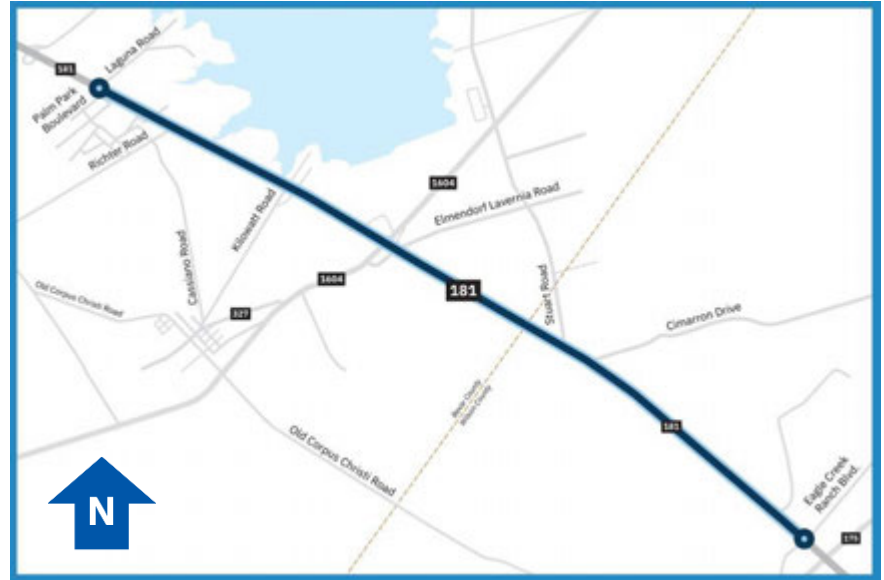

Bexar and Wilson Counties, Texas

CSJ: 0100-02-070

### Project Overview

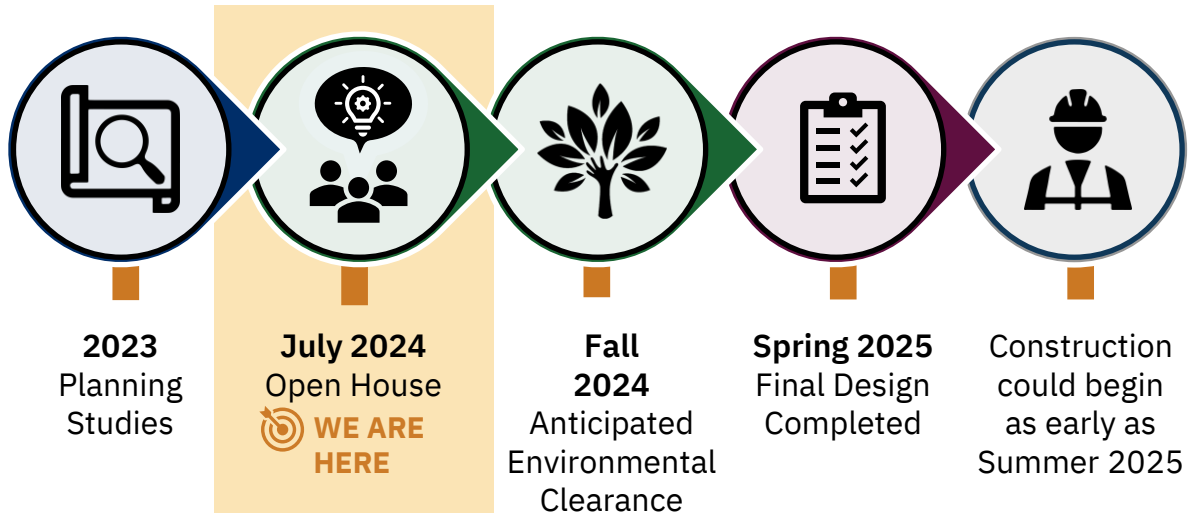

The Texas Department of Transportation (TxDOT) is proposing safety improvements to US 181 from Palm Park Blvd to Eagle Creek Ranch Blvd in San Antonio, Bexar and Wilson Counties, a length of approximately seven miles.

The purpose of the proposed project is to improve safety for vehicular traffic and reduce the conflict points where crashes are most likely to happen. The roadway currently consists of two lanes that run in each direction and are separated by a grassy median, with locations to cross over both lanes along US 181 at several cross streets. TxDOT's proposed improvements include closing crossovers and installing unsignalized Restricted Crossing U-turn (RCUT) lanes. All improvements would be constructed within the existing right of way.

### Anticipated Project Timeline

*\*This timeline is subject to change.*

### What is the purpose of the project?

- ✓ Improve safety and reduce conflict points.
