

STUDY OVERVIEW

The Interstate 10 (I-10) Texas Corridor Study area follows I-10 in Texas from the New Mexico state line to the Louisiana state line. The I-10 corridor is one of the busiest and most important highways in the Texas transportation network. Approximately 880 miles of I-10 span the state, connecting cities and communities and providing a pathway for continued economic prosperity. In keeping with population growth, increasing traffic, and the state’s booming economy, the Texas Department of Transportation (TxDOT) is conducting a study of the entire I-10 corridor in Texas. The I-10 Texas Corridor Study will examine currently planned transportation projects and analyze safety, connectivity, bottlenecks, and other mobility issues. Once completed, the study will identify short-term, mid-term, and long-term improvements to address the needs along the corridor.

KEY CONSIDERATIONS

The I-10 Texas Corridor Study will consider a number of issues, needs and improvements, including but not limited to the following:

Mobility & Congestion

Costs & Funding

Truck Parking

Multimodal Passenger & Freight

Alternative Routes & Resiliency

Connectivity

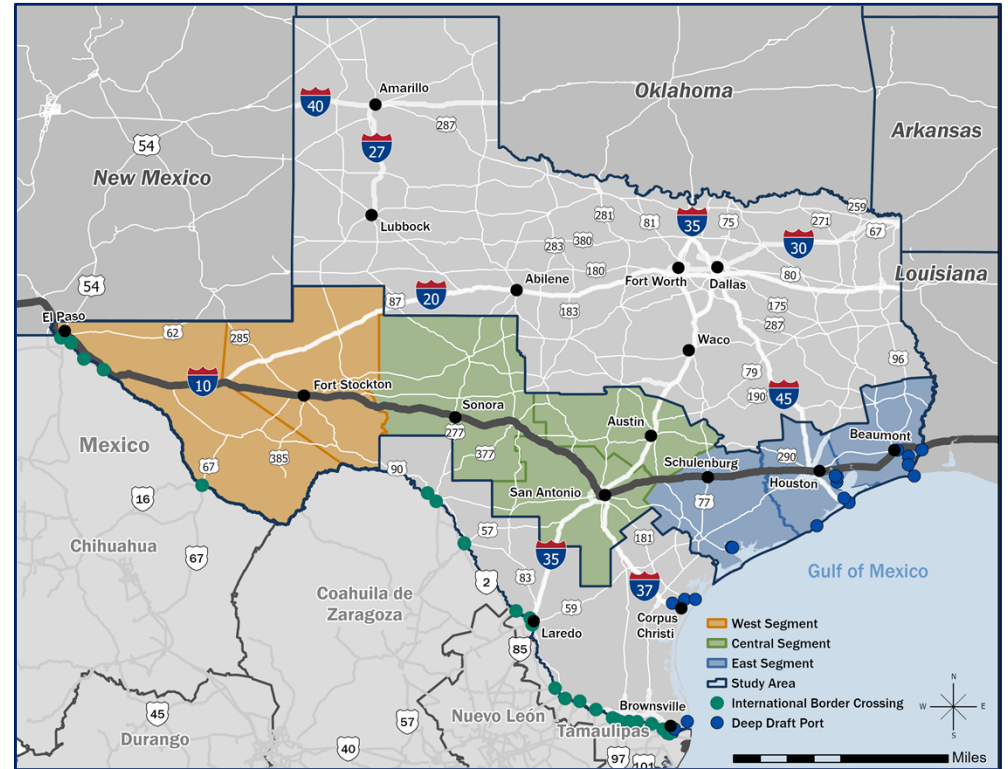

Safety

Operations & Maintenance

Asset Preservation

STUDY PURPOSE

Identify transportation needs and prioritized plans, policies, programs, and projects to improve safety, connectivity, and mobility along the I-10 corridor.

QUICK FACTS

Highway Characteristics

- 880 Miles in Texas
- 2,114 Bridges
- 52% Has Eastbound Frontage Road
- 55% Has Westbound Frontage Road

Highway Connections

- 8 Interstate Highways
- 16 State Routes
- 28 State Highways
- 14 State Loops

Local Entities

- 8 TxDOT Districts
- 5 MPOs
- 8 COGs
- 60 Cities
- 25 Counties

Multimodal Ports

- Port of Houston
- Port of Beaumont
- Port of Port Arthur
- Port of Orange

State Parks

- Franklin Mountains
- Balmorhea
- Guadalupe River
- Palmetto
- Stephen F. Austin

Other Key Features

- 2 Highway Evacuation Routes
- 11 Military Installations
- 5 International Border Crossings
- 3 Rail Border Crossings
