

Unified Transportation Program (UTP)

Fiscal Year (FY) 2024 Administrative Changes

Funding Adjustments

Administrative funding adjustments in the UTP are those that fall within the Texas Administrative Code §16.105(e) and §16.105(f), defined below. As allowed by these sections of code, the following table itemizes funding increases to projects in 2024 UTP Categories 2, 4 and 12 during FY 2024.

TAC §16.105(e): The term "major change" refers to the authorization of new projects or the revisions of project funding allocations which exceed 10 percent of the project cost or \$500,000 occurring in non-allocation program categories....

TAC §16.105(f): The UTP may be administratively revised at any time and for any reason that does not constitute a major change as described in subsection (e) of this section, with the exception of Category 12 or does not affect the total amount of funding allocated to a district for Category 4

Unified Transportation Program (UTP) Project De-Authorizations List

When UTP project funding is de-authorized, all funding of a specific category is removed from a project through the annual adoption of the UTP by the Texas Transportation Commission. Funding is typically de-authorized due to changes in project selection priorities of an MPO or TxDOT district. Once de-authorized, these funds are returned to their respective category balances and may be programmed on other projects, as the MPOs and districts deems necessary. Project funding de-authorization does not necessarily indicate the cancellation or removal of the project from the UTP, and project development may continue while different funding is identified in the future.
