PURPOSE AND NEED

The purpose of the proposed project is to improve mobility, enhance access, and improve safety

PROJECT DETAILS

Limits: From 1.55 miles west of SH 31 (MM 588) to 1.14 miles east of SH 31 (MM 590)

CSJ: 0495-07-074

Project Let: January 2026

Total Length: 6.4 miles

Status: Right-of-way acquisition

Details:

- Widening from a four-lane to a six-lane highway to provide three travel lanes in each direction and designing bridge crossing for the future
- Redesigning the highway's alignments to meet current design standards and enhance safety
- Replacement of freeway main lanes, ramps, and direct connectors
- Construction of conventional main lanes will consist of roadway, structures, grading, earthwork, drainage, retaining walls, signing, pavement markings and illumination

PROJECT TIMELINE

2020
Coordinated meeting with neighboring property owners, environmental clearance granted on April 3, completed schematic development

2023
Right-of-Way acquisition in progress
Utility coordination scheduled to start in late Fall

2026
Construction is estimated to begin based on current financial forecasts
