

YOU'RE INVITED!

Virtual Public Meeting with In-Person Open House

The Texas Department of Transportation (TxDOT) invites you to a virtual public meeting with in-person option. The purpose of this public meeting is to present the proposed project, engage with the community and gather feedback.

SH 315: US 259 to Panola County Line

TxDOT is evaluating alternatives for widening SH 315 in Rusk County, Texas from US 259 to the Panola County Line. The existing two-lane roadway includes two 12-foot travel lanes and two 8-foot shoulders, and the proposed four-lane roadway being evaluated includes two 12-foot lanes with 10-foot shoulders in both directions separated by a median.

The intent of the proposed project is to increase the safety along the corridor and to update the roadway and intersections to current design standards.

The project would require additional right-of-way. The amount of right-of-way required varies depending on the alternatives developed. TxDOT anticipates this project going to construction in 2033.
