

# US 69 FEASIBILITY STUDY

## Join us for an Open House

### LEARN ABOUT THE US 69 FEASIBILITY STUDY

- The City of Tyler, the Tyler Area Metropolitan Planning Organization and the Texas Department of Transportation have partnered to conduct a study that explores improvements, including innovative intersections, on US 69 (South Broadway Avenue) from Amherst Street to FM 2813.
- South Broadway Avenue, from Loop 323 to Toll 49, is the most congested roadway in Smith County. It was also ranked as Texas' 67th Most Congested Roadway in 2017 by the Texas A&M Transportation Institute.
- The feasibility study will identify a recommended option that will address current and future traffic-related delays along the existing corridor. The recommended option will be evaluated further in future phases of project development, should the project advance beyond the current feasibility study.

#### WHEN:

Tuesday, July 17, 2018  
5 p.m. to 7 p.m.

#### WHERE:

First Christian Church  
4202 S. Broadway Ave.  
Tyler, TX 75701

Come and go at your convenience to learn about the project and share your valuable feedback.

#### UNABLE TO ATTEND?

Visit [bit.ly/US69FeasibilityStudy](http://bit.ly/US69FeasibilityStudy) for more information about the study and a link to a community survey where you can provide feedback.
