**Virtual Public Meeting with In-Person Option**  
**Speegleville Road Bridge at Middle Bosque River**  
**From South of Maple Shade Road to North of Oak Road**  
**CSJ: 0909-22-224**  
**McLennan County, Texas**

The City of Waco is proposing to widen Speegleville Road and reconstruct the existing bridge 0.61 miles south of Maple Shade Road to north of Oak Road in McLennan County, Texas. This notice advises the public that the City of Waco, in collaboration with the Texas Department of Transportation, will be conducting an online virtual public meeting on the proposed project with an in-person option. This is the second public meeting for the proposed project. **The virtual meeting will consist of a pre-recorded video presentation and will include both audio and visual components. The presentation will be posted online by Thursday, Sept. 25, 2025 at 5p.m. and will remain online for at least 15 days.** To view the virtual public meeting, go to the following web address at the date and time indicated above: <https://www.waco-texas.com/Events-Activities/Street-Improvement-Public-Meeting>. If you do not have internet access, you may call (254) 750-6613 between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, to ask questions and access project materials during the project development process.

Additionally, the City of Waco is providing an in-person option for individuals who would like to participate in person instead of online. The in-person option will be held in an open house format. In-person attendees will be able to view the same presentation delivered in the online public meeting which will be playing on a screen, review hard copies of project materials, ask questions of City of Waco staff, Texas Department of Transportation (TxDOT) staff, and/or consultants, and leave written comments. **The in-person option will be held on Thursday, Sept. 25 from 5 p.m. to 7 p.m. at Fellowship Bible Church, 5200 Speegleville Rd, McGregor, TX 76657.**

The project would extend from south of Maple Shade Road to north of Oak Road, for approximately 3,221 linear feet (LF). The total project length would extend 0.61 miles. The proposed project would take place within the existing 101-foot-wide to 233-foot-wide right-of-way (ROW). The proposed project would construct an additional northbound and southbound travel lane, creating a four-lane roadway separated by a painted median. The proposed bridge crossing would be separated into two different bridges elevated over the Middle Bosque River for a total of 528 feet in length for each. Both bridges would have concrete shoulders. The northbound bridge would include two 12-foot-wide northbound lanes, and the southbound bridge would include two 12-foot-wide southbound lanes. In addition to roadway improvements, pedestrian crosswalk striping and sidewalks would be added along Speegleville Road. Sidewalk widths would range from 6 to 12 feet.

The proposed project would involve an action in a floodplain.

Any environmental documentation or studies, any maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for inspection by appointment only, Monday through Friday between the hours
