

PROJECT DESCRIPTION

TxDOT in partnership with the City of Pearland is performing the following roadway improvements:

- Switching the current entrance ramp from Magnolia Pkwy (CR 59) to an exit ramp to FM 518.
- Switching the current exit ramp to FM 518 into an entrance from Magnolia Parkway.
- Connecting Magnolia Pkwy to FM 518 via the construction of new northbound frontage road with access to adjacent businesses.

Included with the new construction:

- New drainage culverts and detention pond to maintain conveyance of storm water across SH 288.
- Add Lighting using Luminaire style system.
- Adding new concrete traffic barrier, signs, landscaping sod, and pavement markings.

FAST FACTS

To expedite the SH 288 southbound frontage road and ramp project between FM 518 and Magnolia Parkway in Pearland, the existing exit ramp to FM 518 will be closed starting June 3 for about six weeks while the new entrance ramp from Magnolia is being built. The detour can be seen in the map above.

This work will improve the access to the surrounding businesses and residences, reduce congestion, and reduce waiting times at adjacent intersections along the SH 288.
