

Truck Parking Demand in Dedicated and Unauthorized Locations Appendixes

WA 3 Task 2.5/2.7

Final 1: March 4, 2020

Appendix D: Potential Truck Parking Sites Not Included in District Profiles

This appendix contains a number of sites that are not included in the District Profiles in Appendix A.

Exhibit 10 contains:

- Privately owned locations opened during or after the utilization data collection periods. These were not included as the utilization data would be incomplete and skew the results.
- Privately owned locations operated as a long-term truck storage facility (different than all other truck parking facilities with utilization data).

Exhibit 11 contains a table that includes “opportunity sites” that will be considered during the recommendations phase of this study. These sites are not included in the district profiles because they are:

- A publicly owned location that has a low (less than 5) or indeterminant number of spaces for trucks to park. For example, at many picnic locations, one or two parked cars could significantly hinder the ability for a truck to park at the location;
- A publicly owned location that does not currently have truck parking but could be developed;
- Publicly owned location currently under development (Nolan County Rest Area in Abilene District); or
- A publicly owned location that has been or is scheduled for closure. Note that property ownership in cases of a closed location would need to be confirmed as part of an Implementation Plan if any of these locations are identified for development.

Exhibit 10: Privately Owned Locations Not Included in District Information

Name	Ownership	District	Latitude	Longitude	# Spaces
Hutto Truck Parking & Storage	Private	Austin	30.577688	-97.582063	20
