

TEXAS TECHNOLOGY TASK FORCE

Webinar Agenda
July 7, 2020

Event Link: <https://txdot.webex.com/txdot/onstage/g.php?MTID=e962f21f8400c8053a8a3224e06f9f9c9>

Event Phone Number: 415-655-0003

Event number: 160 259 4587

Event Password: Techtaskforce1

Objectives:

- 1) Discuss automated vehicle safety assessments and the role of federal and state agencies
 - 2) Elevate the need to focus on data and cybersecurity
 - 3) Recommend opportunities for Texas that are identified in the Technology Utilization Plan
-

1:00 PM | Call-in Period to Do Sound and Technology Check

1:30 PM | Introductions & Updates – *Darran Anderson, TxDOT, C. Michael Walton, and UT Austin Research Team*

1:45 PM | Automated Vehicle (AV) Safety Assurance, Roadworthiness, & Consumer Education

Moderator: Avery Ash, Head of Autonomous Mobility, INRIX

This session will feature a discussion on AV safety assessment and consumer education. A panel with representation from insurance, the automotive industry, AV system developers, and government will provide perspectives on the role of safety assessments to inform roadworthiness, public education, and policymaking activities. Additional topics include visions for pathways to safety assessment, pros and cons of each pathway, prospects for developing a collaborative safety framework, and opportunities for information sharing. Case studies from aviation safety certification and consumer and public education will be presented to offer lessons learned and guidance.

Tom Karol, General Counsel – Federal, NAMIC

Tara Andringa Dunfee, Executive Director, Partners for Automated Vehicle Education (PAVE)

Libby Elliott, Texas Department of Insurance (TDI)

Jackie Erickson, Edge Case Research

John Maddox Director of the Self-Driving Platform, Lyft

2:45 AM | Recommendations for Texas – *Task Force Members*

3:00 PM | Break

3:15 PM | Technology Deep Dive: Data & Cybersecurity – *UT Austin Research Team or SME*

Presentation on major trends, technologies, and case studies related to data and cybersecurity.

3:45 PM | Tech Utilization Plan: Key Findings – *UT Austin Research Team*

The research team presents the results of the Technology Utilization Plan, identifying short- and long-term priorities where Texas can make significant impacts in research, deployment, and policy.

4:15 PM | Closing Remarks and Next Steps – *Darran Anderson, TxDOT & C. Michael Walton, UT Austin*

4:30 PM | Adjourn
